

**Monitoring and Evaluation** is about creating a culture of iterative success, starting with managing data to better understand your impact. Whether your organization is just getting started or looking to streamline systems, Global Insight offers a package that fits your vision.

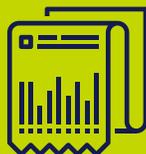

## Basic

**Move beyond ideas to impact**  
90 days

**Transform** unwieldy data to capture the story of your organization's impact. Develop a full-scale, M&E system from the ground up in consultation with a technical expert dedicated to your team's mission. Build your team's capacity through our highly collaborative approach.

*\*Also includes our "Harnessing Your Data" workshop.*

## Classic

**Foster multi-sector continuity**  
90 days

**Improve** the continuity of your M&E system through cohesive, multi-sector tools and procedures developed in collaboration with an M&E technical expert dedicated to your organization's vision and mission.

*\*Also includes our "Harnessing Your Data" workshop.*

## Premium

**Build capacity through practice**  
5 months

**Build capacity** through practice or hands-free M&E; choose your level of collaboration. Solidify best practices and employ your newly cohesive M&E system during a full-scale evaluation led by a Global Insight M&E technical expert dedicated to your project's mission.

*\*Also includes our "Harnessing Your Data" workshop.*

*\*Global Insight-led workshop: "Harnessing Your Data" strategic planning workshop sets the foundation for a data-driven system that better communicates institution- and project-level impact, linking M&E to fundraising and donor relations.*
